How to Prepare for the End of Card Payments

The proliferation of contactless payment options shifts how businesses interact with customers at the moment of purchase, from international retailers to local pop-up shops. But there's no need to fret just yet if you enjoy buying stuff with cold, hard cash. Plastic cards are first on the chopping block.

"I'd suggest that the time is ripe to plan for plastic (and metal) cards to be sent to Shady Pines Retirement Home for the Tragically Overstayed Welcome," wrote Nick Holland, global head of insights and networks at Money 20/20. During the group's 2022 conference in October in Las Vegas, financial technology companies touting efficiency and seamless experiences were front and center, as plastic cards faded into the background.
